

All of the 2009 Shows are now available and searchable on the archive. Cox and Box and Pinafore are searchable separately.

DECADE SUMMARIES are being prepared. These will appear gradually over the next few weeks. The first one, Decade 2001-2010 is now available. These summaries give an at-a-glance look at all the shows done in the course of a decade: the year, the show, the dates and the venue if known, the director and musical director, and a link to the archive entry for that show. In the 2001-2010 summary you can also see whether there is a CD and/or a DVD available for sale in our online shop.

Go the Archive menu and scroll to By Year and then to the relevant decade. If a summary is available, it will come up as clickable menu item when you mouse over the relevant decade menu.

The next decade summary to become available will be 1991-2000. You are welcome to contact us if you notice any inaccuracies or errors, and especially if you can help fill in any gaps.
